### Book Club Management Application

#### FISAC - 1

#### Group info:

190905492 Pranjal Mishra

190905452 Nipuna Chhabra

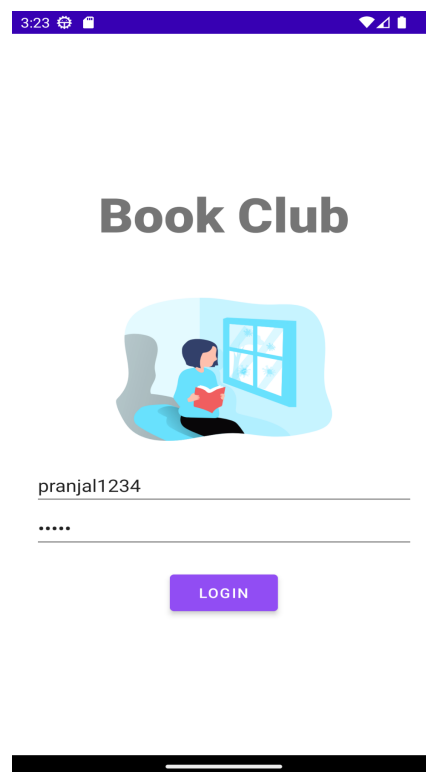

190905396 Nishtha Gahlot

#### Description:

“Book club” is an application designed to manage the fundamental processes in a book club: adding a book, updating the entries, and viewing all books. SQLite database is chosen for storing the book records. Authentication is added as well to ensure security.

#### UI Design

##### 1) Login Page

## 2) Add a new book

5:21

### New Book entry

Title

Great Expectations

Author

Charles Dickens

Publisher

Penguin

Price

300

ADD

UPDATE

VIEW

Added Book

### 3) Update a book entry

1:10

## Update Book entry

3

GET

Great Expectations

Charles Dickens

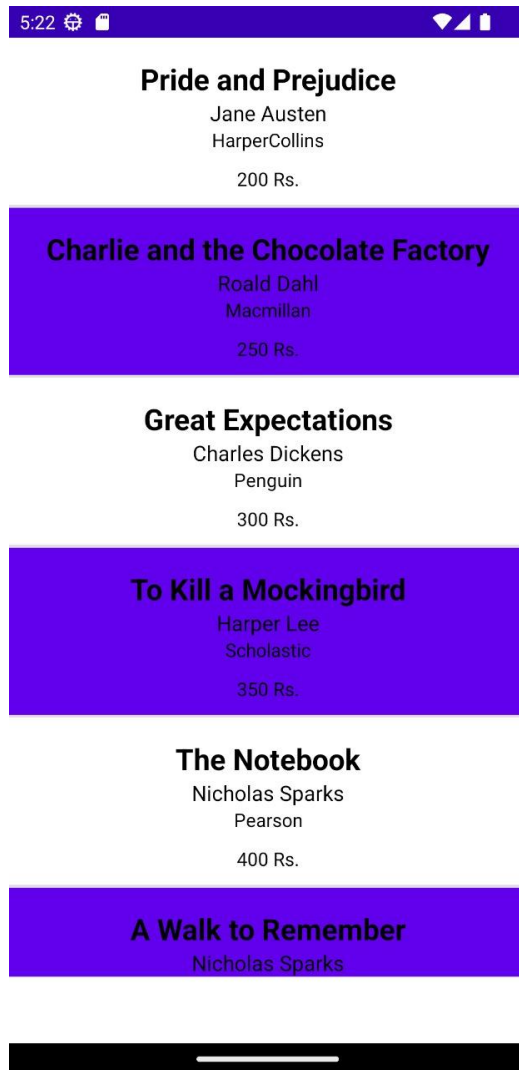

Penguin

350

UPDATE

DELETE

#### 4) View all books (List)

# Database Design
